

SHUBHAM RATHOUR

Frontend Engineer · React.js & Next.js · Full Stack

Dubai, UAE · +971 55 306 2362 · rathishubham641@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

SUMMARY

Frontend Engineer in Dubai with 1+ year shipping React.js and Next.js applications in a production environment. Day-to-day work spans building reusable component systems, integrating REST APIs, managing state with Redux Toolkit, and owning deployments on Vercel. Contributed to a 45% drop in support tickets and 25% improvement in feature adoption on live client products. Comfortable working across the full stack when needed. Looking for a frontend-focused role on a product or SaaS team.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR/SSG), TypeScript, JavaScript ES6+, Tailwind CSS, HTML5, CSS3, Bootstrap

State / APIs: Redux Toolkit, React Context, Custom Hooks, REST API Integration, React Query, Recharts

Backend / DB: Node.js, MongoDB, PostgreSQL, MySQL, Resend API

Tooling: Git, GitHub, Vercel, Vite, npm, VS Code, Chrome DevTools

Practices: Agile/Scrum, Component Architecture, Responsive Design, Cross-Browser Compatibility, JWT Auth

EXPERIENCE

Frontend Engineer · Blue Iris Trading Software LLC

Jun 2024 – Present

Dubai, UAE · React.js · TypeScript · Redux · REST APIs

- Built a shared React component library (forms, tables, modals, nav) used across 3 internal products — cut new-feature build time by ~30%.
- Implemented a step-by-step guided product tour using custom hooks and overlay logic; feature adoption improved 25% over the following sprint cycle.
- Developed analytics dashboard views with REST API integration and real-time data rendering; reduced support tickets by 45% post-launch.
- Resolved cross-browser rendering bugs across Chrome, Firefox, Safari, and Edge; standardised UI behaviour across the entire user base.
- Applied lazy loading, dynamic imports, and image optimisation on high-traffic routes — average Lighthouse performance score up ~18 points.

Web Developer Intern · CodeBright Technologies Pvt. Ltd.

Jan 2024 – Mar 2024

Noida, India · React.js · HTML5 · CSS3 · JavaScript

- Converted design mockups into responsive React pages; delivered 4 client-ready UI modules across 2 sprint cycles.
- Refactored 3 legacy frontend modules — improved component reuse, fixed accessibility gaps, reduced average load time on affected pages by ~0.8s.

PROJECTS

Admin CMS & Analytics Dashboard [↗](#)

Next.js · React · TypeScript · MongoDB API · Redux · Recharts · Resend API · Vercel

- Built a JWT-authenticated admin platform with protected routes, role-based navigation, and a multi-section CMS for managing portfolio content and media.
- Wired Recharts dashboards to a REST API layer for real-time project and contact analytics; used dynamic imports and Next.js SSR to keep initial load under 1.8s.

- Integrated Resend API for contact form email delivery and Sonner for toast notifications; designed MongoDB-compatible schema for persistent message storage.

ECOMZY — Shopping Cart [↗](#)

React.js · Tailwind CSS · Context API · useReducer · Vercel

- Shopping cart app with global state via Context + useReducer — add/remove/quantity updates with no page reload, mobile-first layout.

DreamsBig247 — Business Site [↗](#)

React.js · Vite · Tailwind CSS · Vercel

- Modular component structure, Tailwind utility classes, sub-1s build via Vite, deployed via Vercel CI/CD with Git integration.

E D U C A T I O N

Master of Computer Applications (MCA)

Galgotias University, Greater Noida · CGPA 8.05 / 10

2022 – 2024

B.Sc. Computer Science

CCS University, Meerut

2019 – 2022
