EXPERIENCE

Frontend Engineer | Blue Iris Trading Software LLC | Jun 2024 - Present | Dubai, UAE

React.js, TypeScript, Redux, REST APIs

- Build and maintain reusable React components for forms, tables, modals, navigation, and other shared interface patterns used across internal products.
- Develop dashboard screens that present API data clearly and support day-to-day product and operational workflows.
- Implemented a guided product tour using custom React hooks and overlay logic to help users understand new features.
- Investigate and fix browser-specific UI issues across Chrome, Firefox, Safari, and Edge.
- Improved page loading on key routes through lazy loading, dynamic imports, and image optimization.

Web Developer Intern | CodeBright Technologies Pvt. Ltd. | Jan 2024 - Mar 2024 | Noida, India

React.js, HTML5, CSS3, JavaScript

- Converted design mockups into responsive React pages and delivered UI modules during sprint-based client work.
- Refactored older frontend components to improve reuse, address accessibility issues, and reduce unnecessary page load time.

PROJECTS

TrueRemittance | UAE-to-India remittance comparison platform | Live project

Next.js, TypeScript, Prisma, PostgreSQL, Tailwind CSS, Vercel

- Built a comparison platform that ranks remittance providers using AED fees, exchange rates, and final INR payout.
- Designed data models for providers, corridors, and rate snapshots, including safe handling for empty or incomplete data.
- Built an admin area for updating rates and a ranking flow that uses the latest active quote for each provider.

Admin CMS & Analytics Dashboard | Portfolio project | Live project

Next.js, React, TypeScript, MongoDB API, Redux, Recharts, Resend API, Vercel

- Created an authenticated admin dashboard with protected routes, role-based navigation, and CMS workflows for portfolio content and media.
- Connected analytics screens to REST APIs and used dynamic imports and Next.js rendering features to keep pages responsive.
